INTERMODAL SERVICE

- **Savings** - With **substantial savings** when compared to shipping over-the-road, the railroad is a perfect option for freight that is not time sensitive and needs to ship on a budget.
- **No sweat** - Shipping via rail is a dock-to-dock service and requires **no additional work** for you, the shipper or the consignee (compared to over-the-road shipments).
- **Same attention** - Of course Redhawk's intermodal shipments receive the same **professional service** as our over-the-road shipments.

SERVICES

- > 40, 45, 48 & 53 ft containers
- > High-Cubes available
- > Drop service available
- > Hazardous materials
- > Port pulls
- > Drayage service
- > Lane & cost analysis
- > Contractual pricing

- **More loading time** - Containers can be dropped so you can **(un)load at your leisure**. This service is provided at a fraction of the price of typical over-the-road trailer drops.
- **Price stability** - Avoid seasonal fluctuations in price by taking advantage of our **contract rates**. You may also benefit from decreasing market prices with our **spot rates**.
- **Rest easy** - Throughout the entire transit your freight will be **insured for at least \$200,000**.
- **Expanded service** - Not only does Redhawk offer the best value on shipments headed to the West coast, we offer **service to/from regions that are not traditionally considered** for rail.

• **Options** - If you feel like you are paying too much for your full truckload service, Redhawk Global may have the solution for you. As an **alternative to your dedicated over-the-road shipments** Redhawk offers you the services of the country's largest railroads.

• **Leverage our knowledge** - Our staff takes pride in understanding the unique needs of all of our customers. We will fully educate you on intermodal service so you can **make an informed and comfortable decision** when choosing between rail and traditional over-the-road shipping.
